OceanCon – New technologies for the Blue Economy

At the **Rostock Ocean Convention**, representatives from the worlds of business, science and politics will discuss the latest developments, trends and projects in digital underwater technology.

You can look forward to a wide-ranging program:

- Keynotes and panel discussions
- Accompanying exhibition showcasing the latest products and developments
- Presentations highlighting start-ups and innovative solutions
- Networking opportunities

How to attend – in person or by live stream:

- All applicable health and safety requirements will be observed
- There will be no fees for cancellations made at short notice
- Should you wish further information (program and updates), please visit: www.rostock-business.com/en/oceancon

Digital participation possible

Live stream and chats

May be subject to change due to the coronavirus situation
