

# STUDENT INTERNSHIP – SUMMER 2023

COVE's Internship Program is an exciting opportunity for post-secondary students from all disciplines to gain experience in the marine technology sector. From engineering to finance, computer science, business management, marketing and communications, companies in Nova Scotia and Newfoundland are seeking students for exciting and lucrative career opportunities in the marine technology sector.

## ELIGIBILITY

- Open to post-secondary students from all disciplines (i.e. Environmental Science, Engineering, Computer Science, Business, Marketing and Communications, etc.).
- Students must be actively enrolled in a post-secondary program during the summer internship.
- Based on the required skillsets, placements are typically geared towards second-year students and above.
- Collaborative self-starter.
- Open to learning.

Interested in gaining valuable work experience within the marine sector?

**Apply today!**

Applications are due Monday, January 23rd at 11:59 p.m. AST.

## PROGRAM OVERVIEW

- 16- week full-time paid (\$19/hour) employment from May–August 2023
- Project-based learning opportunity with a host company in Nova Scotia or Newfoundland.
- Professional Development sessions.
- Mentorship from industry professionals.
- Networking Opportunities.

*“Great experience! Very happy with the knowledge I have gained and the work experience I now have to offer.” – Internship student 2022*
